

`operator<<`

```
graph LR; A[operator<<] --> B[nat_num_t::size]
```

A diagram showing a relationship between two identifiers. On the left, the text 'operator<<' is enclosed in a gray rectangular box. A blue arrow points from the right side of this box to the left side of another rectangular box on the right. This second box is white with a black border and contains the text 'nat_num_t::size'.

`nat_num_t::size`
