

NumRepr::dig\_t::read

```
graph LR; A[NumRepr::dig_t::read] --> B[NumRepr::dig_t::get_type_template_string_id_token]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'NumRepr::dig\_t::read'. The right box is gray with a black border and contains the text 'NumRepr::dig\_t::get\_type\_template\_string\_id\_token'.
