

NumRepr::dig_t::get
_digit_token

NumRepr::dig_t::get
_radix_token

NumRepr::lex::is_separator

```
graph LR; A[NumRepr::dig_t::get_digit_token] --> C[NumRepr::lex::is_separator]; B[NumRepr::dig_t::get_radix_token] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two boxes stacked vertically. The top box contains the text 'NumRepr::dig_t::get' followed by '_digit_token' on the next line. The bottom box contains the text 'NumRepr::dig_t::get' followed by '_radix_token' on the next line. To the right of these two boxes is a single, wider box. Two blue arrows originate from the right side of the left boxes and point towards the left side of the right box. The top arrow points from the top-left box to the top-left corner of the right box. The bottom arrow points from the bottom-left box to the bottom-left corner of the right box. The right box contains the text 'NumRepr::lex::is_separator'.
